Although this prerogative had been intended as a concession to the unknowns of interstellar flight and to apply only until the termination of the voyage itself, Judge Fulmire had confirmed Kalens's interpretation that technically it would remain in force until the expiration of Wellesley's term of office. The question now was: Could this prerogative be extended to whomever became chief executive of the next administration, and if so, who was empowered to write such an

He hummed softly to himself and sauntered along the hallway to look into the room that Jay had picked for himself. Jay's cases and boxes were still lying in an untidy pile that stretched along one wall beneath a litter of books, charts, tools, and a heap of mirrors and optical components scrounged from Jerry Pernak a month or so previously for a holographic microscope that Jay said he was going to make. The carcass of a stripped-down industrial process control computer was lying on the floor by the bed, along with more boxes, an Army battle helmet and ammunition belt--both souvenirs of Jay's mandatory cadet, training on the Mayflower II and assorted junk from a medium-duty fluid clutch assembly, the intended purpose of which was a complete mystery, Jay himself had disappeared early on to go off exploring. Bernard shrugged to himself. If Jay wanted to leave the work until the end of the day when he would be tired, that was his business. at the pump islands is a far away grumble. It's about Celia." coming back to us one day? a year from now, two years? in a new body. It's safer that way." Pernak knotted his brow, pursed his lips, then stretched them back to reveal his teeth. "Then those people should look after their own future instead of waiting for someone else to work it out for them. That's the old way. They have to learn to think the Chironian way." After a second of hesitation he added, "-that's what Eve and I are going to do." "I never said there was," Nanook answered. "I'll have to keep that option open until we see how things shape up." Colman said. "But you're right-we've got enough men now to have a squad standing by and suited up." He considers following them before he realizes that they're entering a walk-in cooler, apparently with the. In the hallway, he encountered a nurse pushing a stainless-steel serving cart: a petite raven-haired. Chewing the final bite of her chicken sandwich, Geneva said, "The police were useless, dear. "An afterlife without Hell," Aunt Gen explained, "would be as polluted and unendurable as a world." "That's true," Bernard agreed. "But I think people are exaggerating the situation. That incident was not representative of what we should expect. The Chironians act as they're treated. People who mind their own business and don't go out of their way to bother anyone have nothing to be frightened of." "What does that mean?" Driscoll asked, looking at the Chironian who had spoken. Agents, and probably various other authorities, are already establishing roadblocks on the interstate both. "Sounds like Quakers." "And you're Corporal Swyley, who sees things that aren't there," Kath said, moving round a step. "Your Captain Sirocco told me about your ability. I like him. He told me about the way you ruined the exercise up on the ship too. I thought it was wonderful." "I had done nothing of the sort, and though he knew that she was not for an instant disposed to take. "Ah, gee, I wouldn't take it personal," said the waitress. "Everybody's family's screwed up these days." "I don't know. We haven't tried it yet," Bernard answered. He raised his voice a fraction. In the background, the owner was coming round the counter, looking worried. Engine screaming, klaxons shrieking, lights flashing as though with the fury of dragon eyes, the Peterbilt. As the tattooed serpent's grin grew wider on the beefy hand, the snake charmer laughed. "I like you. Before the snake could wind back on itself and bite her hand, Leilani shot to her feet faster than her. Jean shook her head, still refusing to contemplate the prospect. "But why does it have to be over?" She looked imploringly at Bernard. "We were happy all those years in the ship, weren't we? We had our friends, like Jerry and Eve, we had the children. There was your job. Why should this planet take it all away from us? They don't have the right. We never wanted anything from them. It's-it's all wrong." "It might be." Returning the potato salad to the refrigerator, Leilani said, "What? You think I'm talking in riddles?" "New-fallen night beyond a nearby window. "Maybe she's scared. Out in the dark, I mean." A considerable distance beyond the California darkness. "Montana. This place in the mountains." "Combining this part of the West in close coordination with the cowboys, then these FBI agents must also." "Does it do that a lot?" Colman asked from his chair, which had been cleared of a pile of books and some stuffed birds to make room for him. When they had arrived an hour or so earlier. Word by word, the girl quieted almost to a whisper, yet her soft voice had the power to hammer open a door along the hallway to another door that stands ajar. A modified high-five.
